Coleman Vineyard

## 2017 Coleman Pinot Noir Estate

USA > Oregon > McMinnville  
100% Pinot Noir

This garnet wine is ripe with late summer fruits that are layered with baking spice, floral and confectionery notes, tobacco, oak, and a velvet finish. There is a savory pomegranate quality to this wine that will be best appreciated within 3-7 years. Enjoy with chinese take-out, classic burger (dare we suggest with grilled beets), or even mac and cheese.

### About us

Initially planted in 1991, Coleman Vineyard family estate winery is located in the McMinnville AVA Coast Range foothills of the Willamette Valley.

### Terroir

Coleman Vineyard is located in the McMinnville foothills of Yamhill County in the Willamette Valley. The vineyard is close to the Van Duzer corridor, an opening through the Coast Range mountains to the Oregon coast, providing hot summer days with afternoon winds cooling the evening temperatures significantly. We believe this temperature variation, along with the volcanic soils, contribute to the phenolic characteristics and brightness of the wine, providing a structure for aging and signature dark cherry and spice flavors with intense color. Because of these unique influences, the coastal foothills of McMinnville has been approved for AVA status, and the area is known as the McMinnville AVA. The area is 40 million years old, formed from oceanic volcanic uprisings followed by deposits of lava from the Cascade Mountain volcanic eruptions known as 'basalt tufts'.

### Recommendation

Enjoy with chinese take-out, classic burger (dare we suggest with grilled beets), or even mac and cheese.

Alcohol: 13.50 %
