Coleman Vineyard

2017 Coleman Pinot Noir Deer Run 115

USA > Oregon > McMinnville

100% Pinot Noir

Like a glass of cherry juice with more red than purple, a heady, surprisingly perfumed nose, this single vineyard pinot noir expression surprises with a rich, round palate and broad tannins. The flavor profile is of a dark-fruited compote of late season blueberries, brown sugar, toasted oak, and cacao. The wine finishes medium long and should be enjoyed within 3-7 years. Enjoy with sweet potato chile, slow-cooker pork, or grilled salmon.

About us

Initially planted in 1991, Coleman Vineyard family estate winery is located in the McMinnville AVA Coast Range foothills of the Willamette Valley.

Terroir

Coleman Vineyard is located in the McMinnville foothills of Yamhill County in the Willamette Valley. The vineyard is close to the Van Duzer corridor, an opening through the Coast Range mountains to the Oregon coast, providing hot summer days with afternoon winds cooling the evening temperatures significantly. We believe this temperature variation, along with the volcanic soils, contribute to the phenolic characteristics and brightness of the wine, providing a structure for aging and signature dark cherry and spice flavors with intense color. Because of these unique influences, the coastal foothills of McMinnville has been approved for AVA status, and the area is known as the McMinnville AVA. The area is 40 million years old, formed from oceanic volcanic uprisings followed by deposits of lava from the Cascade Mountain volcanic eruptions known as 'basalt tufts'.

Recommendation

Enjoy with sweet potato chile, slow-cooker pork, or grilled salmon.

Alcohol: 13.50 %
