## Coleman Pinot Noir Deer Run 115 2018

USA > Oregon > McMinnville  
100% Pinot Noir

Over centuries, clones of the pinot noir grapevine have been both carefully and serendipitously cultivated. Planted in 1998, our Deer Run 115 showcases the Pinot Noir Dijon 115 clone. Here on our estate site, this clone consistently shows layers of red fruit such as strawberry and dark raspberry. Blue-black with cocoa powder and velvet, this is a brooding and sexy wine of intrigue with playful shag carpet tannins. The structure and length of this wine demonstrate a depth that is complemented by high notes of lavender and thyme. This wine will be enjoyed for years to come.

### About us

Initially planted in 1991, Coleman Vineyard family estate winery is located in the McMinnville AVA Coast Range foothills of the Willamette Valley.

### Terroir

Coleman Vineyard is located in the McMinnville foothills of Yamhill County in the Willamette Valley. The vineyard is close to the Van Duzer corridor, an opening through the Coast Range mountains to the Oregon coast, providing hot summer days with afternoon winds cooling the evening temperatures significantly. We believe this temperature variation, along with the volcanic soils, contribute to the phenolic characteristics and brightness of the wine, providing a structure for aging and signature dark cherry and spice flavors with intense color. Because of these unique influences, the coastal foothills of McMinnville has been approved for AVA status, and the area is known as the McMinnville AVA. The area is 40 million years old, formed from oceanic volcanic uprisings followed by deposits of lava from the Cascade Mountain volcanic eruptions known as 'basalt tufts'.

### Recommendation

Recommended with a foie burger, salmon in blackberry sauce, lamb à la provençale.
